Important Notice – Concessional Contributions Cap

The annual concessional contributions cap for financial year 2014/2015 is $30,000. A higher concessional contributions cap of $35,000 will apply to anyone aged 50 or over at 30 June 2014.

Contributions that count towards the concessional contribution cap

The following contributions will be counted towards your concessional contribution cap for the current financial year:

- *fortnightly employer superannuation contributions from Monash University;
- *pre-tax member contributions to UniSuper or State Super fund;
- additional voluntary salary sacrifice contributions to UniSuper or VicSuper Accumulation account;
- any pre-tax lump sum contribution; and
- any contributions from any other employment or directorships.

*Notional Contributions for Defined Benefit Members

For Defined Benefit members of UniSuper and ESSSuper, the contributions that count towards the concessional contributions cap are calculated using a Notional Taxed Contribution (NTC) Formula rather than the actual employer and member contributions. The calculated NTC rates are generally lower than the actual level of employer and employee contributions. Further information on NTC rates can be accessed at:

Penalties for exceeding concessional contributions cap

The ATO will identify any concessional contributions above the annual cap and this amount is included as assessable income and is subject to tax at your marginal rates.

Further information

Details of your concessional contributions for the current financial year can be obtained by contacting the Superannuation Office on 9902 9497 or 9902 9585.

Please note that the Superannuation Office can only provide you with information relating to your service with Monash. This information is provided to assist you and your financial adviser to implement an appropriate salary packaging arrangement.

Monash takes no responsibility for advising you if your decision to salary package into superannuation will mean that you exceed your concessional contribution cap
